INDUSTRIES

## Who we are -

Trish Industries was established in 2020. Specialized in all type of electrical works. Trish industries consist of number of employees including master installer, electrician, project engineer, electrical assistants and general labor. Trish Industries has built a reputation for outstanding service and highest level of experience when it comes to all of your electrical requirements.

## Mission statement -

Our unrivalled after sales maintenance packages warranties on all workmanship and guaranteed products have laid us to fast becoming one of the electrical service leaders in the industrial, residential and commercial sector.

Meeting our clients need with highest quality products and market leading service is what we live by and reason you should choose us for your next project.

## Our Main Services –

### ❖ Electrical installations

- Panel Installation
- HT/LT overhead lines
- Transformer centers
- Underground Cables

### ❖ Electrical maintenance

### ❖ Panel Building

- Power Distribution Panel
- ACB Incomer Panel
- APFC Panel
- MCC Panel
- Fire Fighting Panel
- AMF Panel
- PLC control panels

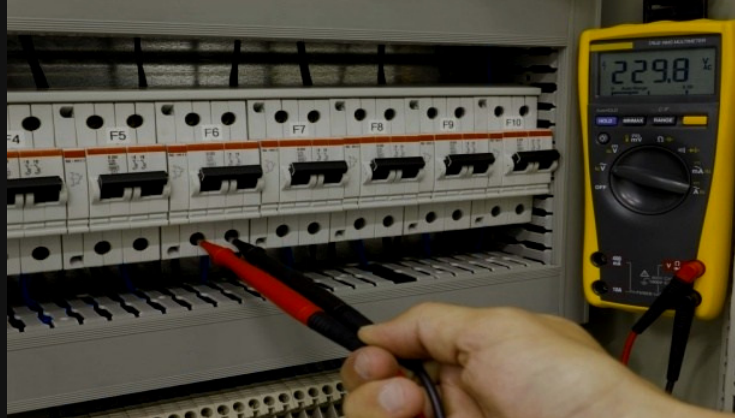

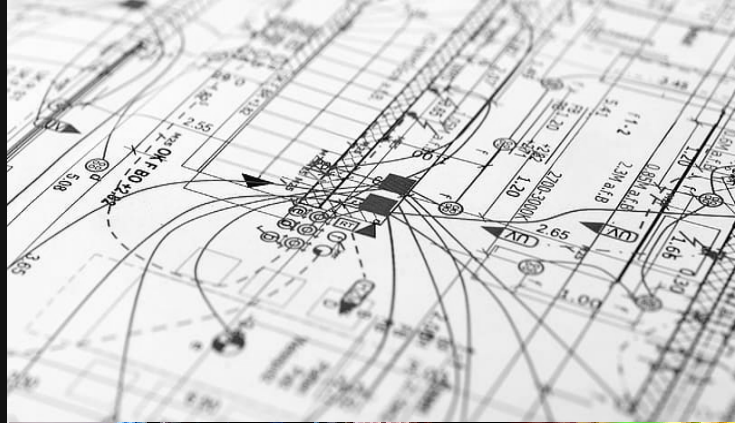

# Electrical installation-

The fixed electrical installation is the electrical wiring, electrical machinery and electrical components that are fixed to a building & distribution system. Installations include for instance fuse boxes, solar or generator installations, ceiling lights, power sockets and large items of machinery terminations.

Trish Industries will

- Plan & Design
- Select & Install
- Commission
- Test
- maintain
- fault find & repair

This will take the system to very high industrial and commercial standards.

# Electrical Maintenance-

Electrical maintenance services offered at all levels, industrial, commercial & residential. Below are indicators of what our work involves;

- Electrical rewiring of panels.
- Electrical rewiring of industries, office blocks, houses.
- Reinstallation of faulty lights, switches, plugs.
- Assist with power supply issues.
- Electrical reticulation.
- Breakdown of control circuits.
- Correcting protection levels.
- Defective components.
- Damaged components.
- Loss of supply.
- Reversed polarity

Trish Industries provides premier electrical contracting and maintenance. We also offer short and long term maintenance contracts.

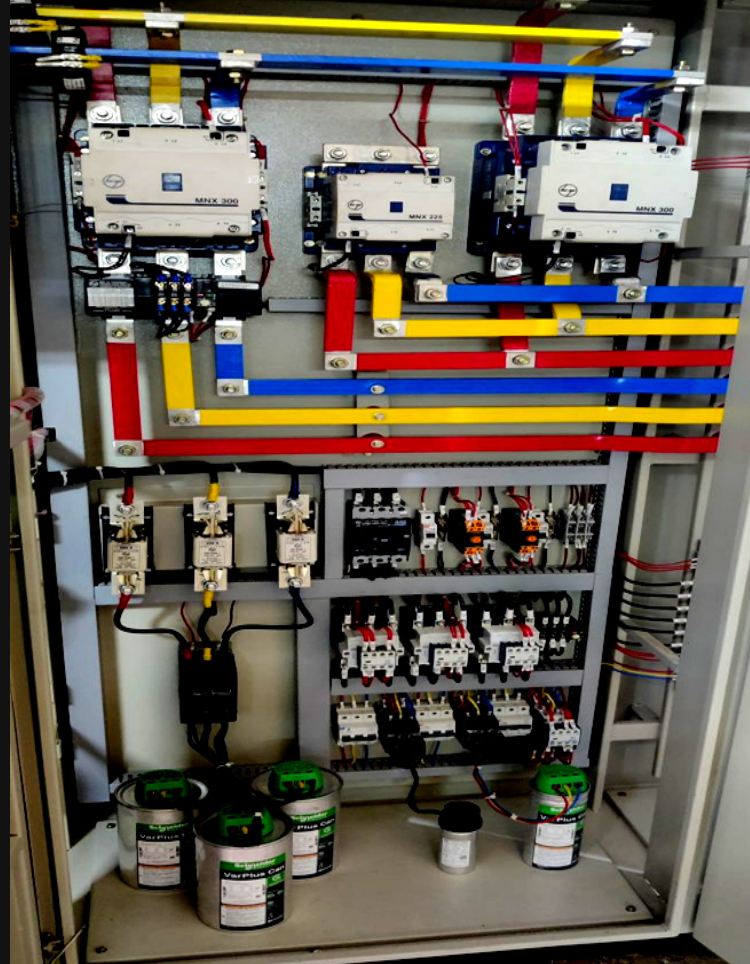

## Automatic Power Factor Correction Panel-

Trish Industries takes necessary measurements of your electrical network components before offering you a solution, to understand your power consumption & power factor constraints.

After The Required hardware is installed you will notice an immediate improvement in power factor & monthly savings in electricity bills.

## ACB Incomer Panel-

## AMF Panel-

## Power Distribution Panel-

Power Distribution Panel is used in industrial applications to distribute power to various locations as per requirement. Various kind of safety devices such as MCB / MCCB / ELCB / Over Load Relay etc. are used for safety purpose.

## Motor Control Circuit Panel-

MCC Panel provides central control of some or all the motors as per requirement. It consists of;

- In house motor protection.
- Control circuit.
- Start stop logic.

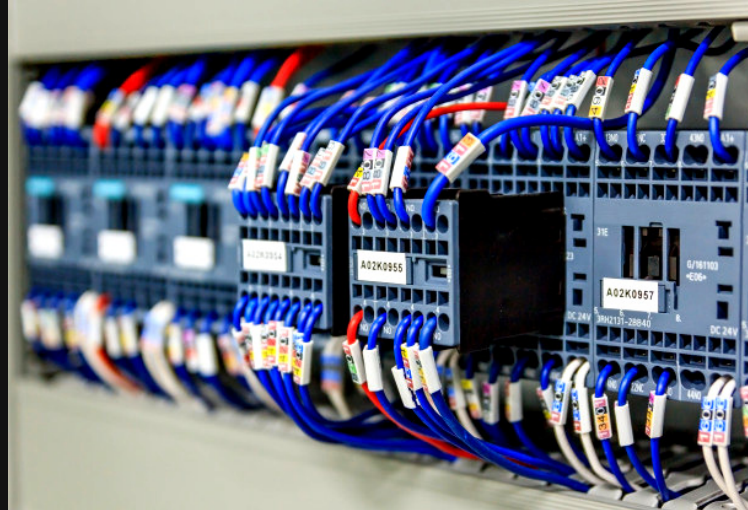

## Fire Fighting Panel-

Modern fire protection systems offer a wide range of sophisticated functions. Our fire control panels and terminals are designed for easy and intuitive operation while offering comprehensive control features

# PLC Control Panels-

In most of the industrial automation applications PLC control panels are used. Our PLC panel provides easy and error free monitoring and controlling.

## Executed Projects-

Sr. No.	Project Synopsis	Client	Location
1	<p>Installation of Incomer panel, MCC panel, Flameproof lights with DB, LED light fittings, Cables, Glanding termination, Cable trays, Earthing, etc.</p> <p>Commissioning of incomer panel &amp; MCC panels.</p>	Indospirit Beverages Pvt. Ltd.	Kuncolim, Goa
2	<p>Installation of Incomer panel, MCC panel, Glanding termination, Earthing, etc.</p> <p>Commissioning of incomer panel &amp; MCC panels.</p>	Bellota Agrisolutions and Tools PVT. LTD.	Sinnar
3	<p>Installation of Incomer panel, MCC panel, 300 sqmm Cable laying 500 mtr Glanding termination, Earthing, etc.</p> <p>Commissioning of incomer panel &amp; MCC panels.</p>	Thaisain Krook	Nashik
4	<p>Installation of Incomer panel, MCC panel, Flameproof lifhts with DB, LED light fittings, Cables, Glanding termination, Cable trays, Earthing, etc.</p> <p>Commissioning of incomer panel &amp; MCC panels.</p>	Nectar Beverages	Karnataka
5	<p>Installation of Incomer panel, MCC panel, 300 sqmm Cables 500 mtr Glanding termination, Earthing, etc.</p> <p>Commissioning of incomer panel &amp; MCC panels.</p>	Ramrajya Enterprises	Nashik
6	<p>Rewiring &amp; Installation of CNC machine control panels.</p>	Precision CNC Services	Nashik
